

TIGER TRAP

2014 SPONSORSHIP PACKAGE

TIGERTRAPLOUISIANA@GMAIL.COM

WHAT IS TIGER TRAP

InfraGard Louisiana will conduct Tiger Trap, an annual cyber security event, in May 2014. Tiger Trap is an information sharing and hands-on learning opportunity for federal and state agencies and private industries. Participants come from a wide range of IT assurance and security fields. Tiger Trap will present a variety of cyber security incidents and will introduce participants to the most up-to-date techniques and practices to handle them.

Tiger Trap 2014 will be a two-day event held in Baton Rouge, Louisiana, at a nominal cost to participants in order to attract the best IT talent in the state.

Tiger Trap will present scenarios and opportunities unlike any other cyber security exercise. Namely, one full day of training will be dedicated to supervisory control and data acquisition, or SCADA, security. Participants will spend that time attacking and defending SCADA-based resources integrated into a mock city (built to scale) where the kinetic effects of a participant's actions can be seen in real time.

SPONSORSHIP OPPORTUNITIES

InfraGard Louisiana relies on sponsorships to help cover the costs for printing, materials, hardware, software, personnel and technical components needed to conduct the exercise successfully.

InfraGard Louisiana would like to thank you in advance for taking the time to review our sponsorship package. In addition to your sponsorship, we hope you will allow your IT security staff to participate in Tiger Trap 2014 to ensure that your organization is informed on the current IT security issues facing the government and private industries alike.

LEARN MORE

Visit www.TigerTrap.org to learn more about this unique event. If you have any questions or suggestions, please feel free to contact us at TigerTrapLouisiana@gmail.com.

Sincerely,

Lester Millet

Lester Millet, III
President, InfraGard Louisiana
